

INGREDIENT AND CROSS CONTAMINATION ISSUES

India Tree labels contain a list of all known ingredients. In the case of allergies, it is up to the customer to be aware of which ingredients may be harmful to them or their children.

During manufacture, we and our suppliers make every effort to avoid cross contamination. However, we cannot guarantee that such contamination will not occur.

Below are answers to some often asked questions:

Grain and Gluten Content

India Tree sugars, spices and candied flowers contain no grain or gluten. However, we do package popping corn in our facility.

Nuts and Nut Oil

We package a small amount of pine nuts in our facility. Some decorating sugars and Party Decoratifs are manufactured in facilities where nuts are also processed.
